1st Week 10hrs

Theory : Organization-Operation Management

- Production Management and Its Controls

Practical:

- Machine Layouts Process Flow
- Material Flow Kaizen and Work Process (TICK)

2nd Week 10hrs

Theory : Organization-Material Management & Inventory Control.

- Incoming Material Stock and Inventory Management
- Ware House Material Handling and Safety
- ABC Analysis Material Conversion
- Physical inventory document

Practical:

- FIFO Re-Ordering Lean Manufacturing-Basics
- Basic 5-S Understanding Kan Ban

3rd Week 10hrs

Theory : Organization- Customer & vendor Management

- Vendor Selection Methodology FG/RM/WIP
- Job Work/Assembly/Brought out Parts
- Vendor Rating Analysis Customer Order process

Practical:

- Quality Performance Indicators Snap Gauges
- Incoming Parts Inspections GO-NO GO Gauges
- Incoming Jigs Fixtures Inspections

4th Week 10hrs

Theory : Organization-Production Planning and Control

- Bill of Material-BOM Material Requirement Planning
- Machine Loading Planning Dispatch Scheduling
- Supply Scheduling Planning

Practical:

- Production Planning and Control JIT
- LOW COST Automations-LCA Batch Processing
- Discrete Processing Continues processing

5th Week 10hrs

Theory : Organization-Quality Control

- Process Capability Pareto Diagram
- 7QC Tools

Practical:

- Basic TQM Quality Control

6th Week 10hrs

Theory : Organization- integration department process

Practical:

- Integration Automation system through Software

7th Week 10hrs

Theory :

- Fixed and Variable Cost in Manufacturing
- Review and Test
- Cost of Poor Quality

Practical:

- Discounts Taxes Freight Reordering Manpower
- Cost Process Cost etc.

8th Week 10hrs

Theory :

- Inter Working of Departments
- Material Movement Flow & It's Control

Practical:

- Overall ERP Concept and Its Working

9th Week 10hrs

Theory :

- Visual Factory Management Concepts

Practical:

- Industrial Visit –(Within 10 KM Range)

10th Week 10hrs

Interview Preparation :

- Job Recruitment Process and Planning

Small and **M**edium Business” (SMB) denotes the businesses that is closely held, normally family owned & supervised and operated on small scale with less workforce and generating small revenues with small Turnover. SMBs, in most economies, smaller enterprises are much greater in number than large companies. SMEs are often said to be responsible for driving innovation and competition in many economic sectors. SMB sector plays a pivotal role in the overall industrial economy of the country. Further, in recent years the SMB sector has consistently registered higher growth rate compared to the overall industrial sector. The major advantage of the sector is its employment potential at low capital cost.

Federation of Indian Small Businesses has been established to assist SMBs to be globally competitive and effective to deliver best at the least. No wonder SMB have courage to support economy of any country. We are instrumental only for exploring and unlocking the potential of SMBs worldwide. We endeavor for total Technology adoption by SMBs.

SMB sector plays a pivotal role in the overall industrial economy of the country. Further, in recent years the SMB sector has consistently registered higher growth rate compared to the overall industrial sector. The major advantage of the sector is its employment potential at low capital cost.
